AERONAUTICAL CHART SUPPLY
(Chart: AF Reg. 0-3)

1. Aeronautical charts, maps and publications distributed by the USAF Aeronautical Chart and Information Service are indicated or listed in the current edition of the USAF "Catalog of Aeronautical Charts and Related Publications."

2. Requisitioning

a. **Continental United States:**

- (1) USAF activities are to submit requisitions thru the supply channels designated by the Chief of the Air Force, Department of Defense, for maintenance and distribution of aeronautical charts and maps.
- (2) These supply facilities are to submit requisitions for replacement of stocks of aeronautical charts and maps thru channels to USAF Aeronautical Chart and Information Service, Washington 25, D.C.

b. **Within Continental United States:** Requisitions from USAF activities within Continental United States are to be submitted to Commanding Officer, Aeronautical Chart and Information Service, Department of Defense, 1615 Air Force Building, Washington 25, D.C. Except what emanating from Air Force, Navy, or Command Headquarters, requisitions are to be submitted to the Chief of the Air Force, Department of Defense, for maintenance and distribution of aeronautical charts and maps. Quantities of charts are to be submitted in such a way as to ensure the maintenance of a 30-day supply at all times but not to exceed a 60-day supply.

c. **Requisitions for Special Purpose Maps and Charts:**

a. Maps and charts for special purposes, specific editions, and also those maps and charts published by other government agencies, which are not listed in the principal types of aeronautical charts in the current edition of the USAF "Catalog of Aeronautical Charts and Related Publications," should be requisitioned from USAF Aeronautical Chart and Information Service, Washington 25, D.C. Charts will be furnished, if available, when sufficiently detailed in requirements as to name or number, scale, projection and publisher.

b. Information regarding data reproduction of certain selected aeronautical charts and maps may be obtained on request from USAF Aeronautical Chart and Information Service, Washington 25, D.C.

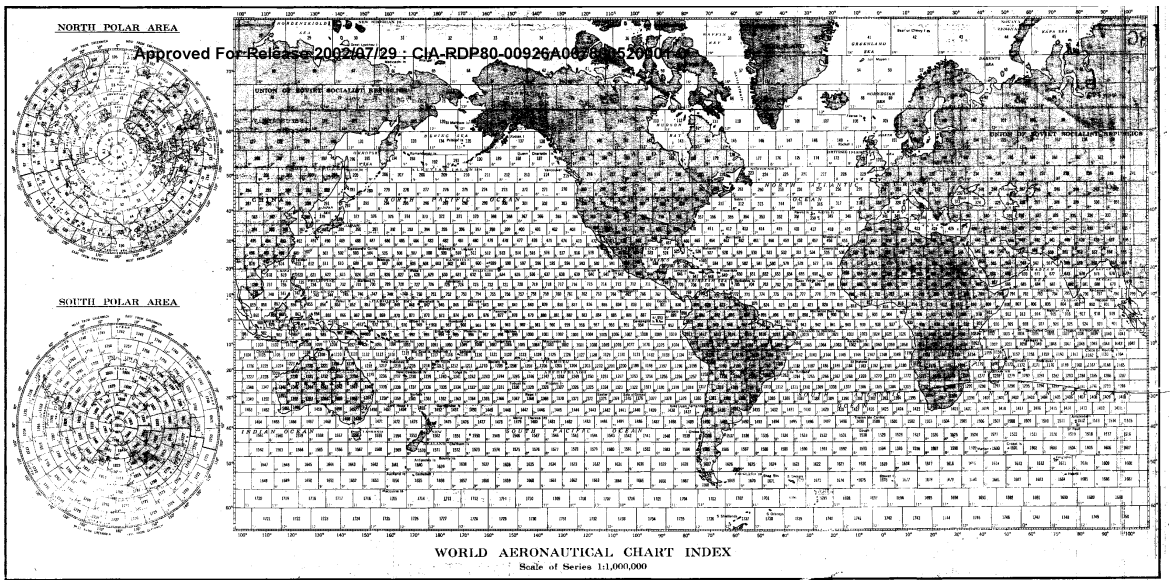

c. **Obsolete Charts:** Aeronautical charts rendered obsolete for air by a new edition, when not practicable to correct for conformity with new edition, are to be salvaged if feasible, or else destroyed. Disposition by salvage or destruction is to be made in accordance with provisions of AFM 25-1. New editions of charts available are announced in the USAF Aeronautical Chart and Information Service Bulletin published semiannually.

d. **International Charts for Civilian Use:** The U.S. Coast and Geodetic Survey, Department of Commerce, Washington 25, D.C., is responsible for the sale and distribution of aeronautical charts required for civilian use. Requisitions from United States citizens regarding price, coverage, distribution, etc., should be submitted directly to that agency.

FROM: **PERMIT FOR PRIVATE USE TO AVOID PAYMENT OF POSTAGE \$2.00**

OFFICIAL BUSINESS
PENALTY FOR PRIVATE USE TO AVOID PAYMENT OF POSTAGE \$2.00

To: **Commanding Officer
USAF Aeronautical Chart and Information Service
Washington 25, D.C.**

CORRECTION INSTRUCTIONS

1. The USAF Aeronautical Chart and Information Service is making every effort to furnish the user with accurate charts. The user will materially assist in this effort by making corrections of aeronautical information, and about features, roads, water, power lines, etc., on the face of the chart, on the margin of the chart, or on a separate sheet. In reporting corrections, state method used by observer in making the determination.

2. The corrected chart shall be forwarded to USAF Aeronautical Chart and Information Service, Washington 25, D.C., in accordance with established security regulations. When security regulations permit mailing an uncorrected chart, the following instructions for use of the mailing form and the forwarding address on this back-up are to be followed:

a. Mark correction on face of chart or under "Remarks" below.

b. Fold chart along regular fold lines, but with back out.

c. Make an extra fold along dashed lines and staple in points as marked.

d. Fill in the return address and drop the chart in any U.S. mail box.

3. If chart cannot be mailed without wrapping, it shall be placed in a diplomatic pouch or wrapped and transmitted in accordance with existing security regulations.

INTERCHART RELATIONSHIP

358 A I 1:500,000	358 A II 1:500,000	358 B 1:500,000
358 A IV 1:500,000	358 A III 1:500,000	
358 1:1,000,000		
358 D 1:500,000	358 C 1:500,000	

Each chart is a component section of 1:1,000,000 World Aeronautical Chart Series, and is indexed within the series as indicated on diagram.
